

# Barn Buddies

Let's face it -- not all Cats are cut out for "life in the living room," but they surely deserve a happy life.

We at Faithful Friends Animal Society think that **BARN BUDDIES** is the perfect solution for them!

The program matches cats with non-traditional life time, loving placements including but not limited to barns, warehouse businesses, and more.

BARN BUDDIES don't require much space, but these skilled rodent technicians are pros at discouraging pesky little critters from taking up residence! In return for their ground patrol expertise, they ask for nothing more than some good food and a warm place to sleep.

To find out how to add **BUDDIES** to your **BARN**, please email Debbie at [adoptacat@faithfulfriends.us](mailto:adoptacat@faithfulfriends.us).

All BARN BUDDIES are vaccinated, dewormed, spayed/neutered, and micro-chipped

No barn? No problem. We also have porch pals, deck dudes, warehouse whiskers and garage gatos, all in desperate need of an outdoor location with access to shelter to call home.
